

Affiliate Program

Immediate Set Up! Immediate Revenues!

Comodo's highly successful Affiliate Program provides organizations of all types with a quick and easy solution designed to offer Comodo's diverse portfolio of industry leading SSL certificates and other Identity & Trust Assurance services. With no integration or development work required, you can start offering your customers the highest industry standard SSL Certificates, PCI Vulnerability Scanning and desktop security solutions available whilst realizing immediate revenues and margins traditionally only available to the Industry's high volume SSL resellers.

By simply selecting the Comodo products that you wish to offer your customers, Comodo Affiliate partners have the power to build their own fully customizable suite of SSL & Identity Trust Assurance products enabling you to immediately diversify your product portfolio and offer your customers the most trusted SSL certificate solutions available.

With Comodo handling all necessary backend infrastructure, payment, provisioning and technical support components, Comodo affiliate partners benefit from a "Zero Touch" system allowing you to focus on your core business whilst enjoying the benefits of aligning your brand as trusted provider.

Key Features
