2018 Edition - Solution Brief

Implementation Consulting Services

What We Do

All Comodo Cybersecurity implementation consulting services start with a kick-off and design session. Projects must align with customer corporate goals and security requirements that drove the software acquisition. We adapt our proven templates, practices and methods to meet your specific needs and ensure your team gains the necessary experience to sustain a successful implementation.

The Comodo Cybersecurity consulting approach follows a proven flexible methodology. The key to success is designing an implementation to fit your infrastructure, staff availability, staff and experience, operational practices and corporate goals.

How We Ensure Success

Our approach is simple: understand requirements, test and expand. We iterate through your various work groups and profiles based on this fundamental approach.

At A Glance

- ✓ Integrate with existing security policies and processes
- ✓ Operationalize results
- ✓ Adapt proven methods
- ✓ Create self-sustaining experience and expertise
- ✓ Guide and mentor towards successful end-to-end implementation

Why Our Services

- ✓ Proven IT and security expertise
- ✓ Experienced consultants, mentors, and instructors
- ✓ Administrative background
- ✓ Projects managed for success

What We Provide

- ✓ Guided Implementations
- ✓ Advanced Implementations
- ✓ As-Needed Consulting
- ✓ Health Checks
- ✓ Ongoing Technical Services

Guided Implementations

Your experienced team benefits from our programmatic approach to implementing security solutions. Comodo Cybersecurity provides project management and consulting to ensure that the implementation meets customer needs in a timely and efficient manner. Your staff will learn from our training programs and our consultative approach to assure uneventful ongoing operations and administration of your Comodo Cybersecurity implementation.

Advanced Implementation

Comodo Cybersecurity works with your team to provide project management and experienced consultants to deliver custom implementation plans and tasks. Sample projects include: deploying to new OS platforms, third party replacements, assessing operations, integrating Comodo's best practices into your operations, providing specific tuning and configuration for complex environments. Our goal: efficient and timely completion of our consulting projects in your complex and dynamic enterprise.

As Needed Consulting

Our experienced consultants support your efforts to implement and adopt Comodo Cybersecurity products to meet your overall security goals. Your team can leverage our training and proven methodology to streamline the implementation. Our consultants will verify your implementation strategy and processes, help design the most viable approach, and provide ongoing feedback to ensure you are gaining real world value from Comodo Cybersecurity products and consulting services.

Health Checks

Cybersecurity is an ongoing process. Organizations, applications, infrastructure, operations – they're always changing. The Comodo Cybersecurity Health Check ensures you are following industry best practices and taking advantage of the latest product features and functions. The Comodo Cybersecurity Health Check includes assessing performance and suggesting ongoing updates and adjustments to sustain your implementation.

About Comodo Cybersecurity

In a world where preventing all cyberattacks is impossible, Comodo Cybersecurity delivers an innovative platform that renders threats harmless, across the LAN, web and cloud. The Comodo ONE platform enables customers to protect systems and data against military-grade threats, including zero-day attacks. Comodo Cybersecurity has experts and analysts in 193 countries, gathering intelligence from 86 million endpoints and serving 200,000 customers globally.
