August 2009 UCC Addendum to the Comodo Certification Practice Statement v.3.0
Beginning September 3, 2009, Comodo CA Ltd. (“Comodo”) will offer three year Comodo Unified Communications Certificates through its USERFirst root certificate. This amendment (“ACPS”) amends version 3.0 of the Comodo Certification Practice Statement (“CPS”) to include the new certificate chain. Also included is a reference to where the Webhost validation guidelines are located. This provides notice to the public of how our webhost customers validate certificates when acting as a registration authority.

Amended portions in this ACPS are included within brackets. All provisions of the CPS not specifically amended or added remain in full force and effect. Headings from the CPS are included to identify the location of the amended information, and are not intended to be duplicative.

1 General
